He respectfully refers to the following
**CARD.**

Having examined the New Patent Shaft Coupling, invented by H. K. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha, so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

### EASTERN DATES TO JANUARY 27.

### Congressional.

WASHINGTON, Jan 26.—In the House, Butler, of Massachusetts, addressed the committee in reply to the speech of his colleague, Dawes. He reviewed the speech at length, claiming that Dawes' assertions were not based upon facts, or were based upon mistaken views of facts. He said the excess of the estimates for the first part of Grant's administration over the expenditures of the last year of Johnson's, was carried by the fact of the outgoing Secretary who, in order to make a good showing, had abandoned all the public works and had under-estimated every public expenditure, so as to embarrass the incoming administration, and that these estimates were based on large unexpended balances. He reviewed the estimates for the different departments seriatim. In speaking of the Post Office Department, he referred to the movement for the abolition of the franking privilege, and spoke of the impudent howling of certain newspapers that don't pay postage. When this is silent, the abolition of the franking privilege will be near at hand. He devoted a large portion of his speech to the personal and political criticism of Dawes, whom he accused of attacking the Republican party for purposes of self-aggrandizement. At the conclusion of his speech, Dawes replied briefly, defending himself from the personal attacks of Mr. Butler, and declaring that personal attacks should not divert him from his purpose to call attention to the expenditures and endeavor to stop them. The committee then rose and the House adjourned.

### Washington News.

WASHINGTON, Jan. 26.—Corbyn is reported to have a chronic disease which prevents him from being present before the committee investigating the gold panic. It is probable the committee will send an attachment for him.

The Committee on Ways and Means have agreed to reduce the duty on opium to one dollar per pound and morphine in proportion.

The President this morning approved the bill admitting Virginia to representation in Congress. The House has not yet been notified thereof. The Senators and Representatives elect were all day in waiting at the Capitol to be sworn in. They may be more fortunate to-morrow.

The House Military Committee have agreed to abolish the brevet rank and a bill will probably be reported to-morrow.

M. Berthany arrived last night, direct from Paris. He returns to resume his duties as French Minister.

### The West Indian Treaties.

CHICAGO, Jan. 26.—The St. Thomas treaty, also the San Domingo treaty, will probably be considered at the next meeting of the Committee on Foreign Affairs. Some members favor considering both at the same time with reference to the policy outside of territorial acquisition, but the friends of San Domingo want the St. Thomas treaty out of the way first. The President, who has been strongly in favor of the purchase of St. Thomas, is said to be willing to yield to save San Domingo. The general feeling of the Senate seems to be against both projects, but the result is uncertain.

### Iron Men on the Tariff.

COLUMBUS, Pa., Jan. 26.—At a meeting of the iron men to-day, resolutions were adopted requesting Congress to raise the duties on pig iron one dollar per ton; on bar iron, rails and other descriptions of manufactured iron, three dollars per ton; and that a direct tax of one dollar per ton be imposed on all descriptions of iron manufactured in this country, to compensate for the loss of revenue on imported iron.

### New York News.

NEW YORK, Jan 25.—The *Arizona*, from Aspinwall, has arrived.

On the Erie railroad an extra freight train ran into the regular freight train, at one o'clock yesterday morning, at Hawkins', a few miles west of Port Jervis. Fifteen cars, loaded with butter, flour and other goods, were completely wrecked. The loss is very great to the Company.

Witnesses and documentary evidence will be shortly sent to Canada to be used against R. W. Caldwell, the draw back conspirator.

Leobalizekey, the Russian who was shot by Daniel Biddle on Blecker street, has entirely recovered and left the hospital. He was shortly before married to a mysterious lady who turns out to be Miss Kuykendall, of Middleton, New Jersey.

Fifteen cases of small pox were reported at the office of the Sanitary Superintendent yesterday, principally from the densely populated portions of the 11th and 15th wards. No cases have been reported from other parts of the city since Sunday.

The suit of the Erie railroad against Vanderbilt, which was set for trial in January, is postponed. The suit is to recover $5,000,000, alleged to have been paid Commodore Vanderbilt on the settlement of the litigation of two years ago. The case is finally set down for the first Monday in March.

NEW YORK, Jan 27.—The colored citizens of this city are making arrangements to hold a great celebration on the ratification of the Fifteenth Amendment to the Federal Constitution.

Only six new cases of small pox were reported yesterday, less than half the number reported the previous day.

The marriage certificate of A. D. Richardson and Mrs. Abbey Sage has mysteriously disappeared from the office of Vital Statistics, where it was filed on Saturday. It will be replaced by a duplicate to be obtained from the officiating clergyman, Francis R. Mills.

An engineer, charged with having attempted the murder of his wife at Gowanus on the 16th inst., was yesterday taken before Justice Winman and after the examination of a number of witnesses was committed to await the action of the Grand Jury. His wife who refused to testify against him was committed for contempt.

In the Morgue, yesterday, the body of John Alexander, supposed to have been murdered, was examined by Coroner Flynn and Dr. Doremus. The latter took charge of the stomach for chemical analysis. Nobody yet knows what became of Alexander's $60,000. The mystery deepens.

The Erie strike is about over. The strikers have failed and a number are beginning to go back to work.

The funeral rites of Henry Placide, the veteran comedian, took place at St. Paul's yesterday. The edifice was crowded with mourners. Rev. Dr. Dix officiated. The ceremonies were very impressive. Among the pall bearers were Messrs. S. L. M. Barlow, Thurlow Weed, Philo S. Ruggles and Lester Wallack. The remains were taken to Greenwood.

### Practicable Route for Darien Canal Found.

NEW YORK, Jan 26.—Panama advices by the *Arizona*, say an easy and practicable route for the Darien canal has been discovered, by which the waters of the Pacific and the Atlantic can be united within five years. The proposed line is outside of the Panama Railroad Company. The eastern entrance is at Puerto Condola, where vessels can anchor in from seventeen to forty fathoms of water. The western entrance is at Santa Motrca. The real distance between the oceans is thirty eight and a half miles. The estimated cost is seventy millions.

### The Irish and Prince Arthur.

NEW YORK, Jan 27.—The Irish citizens are indignant that a ball is to be given in honor of Prince Arthur. Secret meetings of Fenians have been held, at which it was proposed to capture Prince Arthur and hold him as a hostage for the Fenians now in prison in England. The proposition was earnestly pressed but rejected.

### The Erie Strikers Give In.

The Erie strikers held a secret meeting yesterday, lasting several hours. A committee from their body waited on Fisk and told to endeavor to come to some amicable arrangements. They acknowledge themselves beaten and disclaimed having taken any part in the riot on Tuesday. It is understood that a considerable number have been reinstated, but some will not be taken back under any consideration. At 9 o'clock there was an assemblage of 1,000 persons near the Erie shops, and a strong police force conducted the workmen to the ferry boat. There was no demonstration except by a few crazy headed women.

### The Haytien Revolution.

A Charleston dispatch states that Salnave was shot on the 10th inst. Hayti advices state that he was captured in the woods near Salt Row, in the South, and taken to Port au Prince, where he was heavily ironed and thrown into prison. People there went into ecstacies at his capture. The event was celebrated for days by processions, dancing in the streets and festivities of all kinds. One hundred and fifty of Salnave's followers were captured with him, many of whom have been executed. The first of February is fixed for the election of a new President.

### New York Lottery Frauds.

NEW YORK, Jan. 27.—The lottery litigation business, involving John Morrissey, Ben. Wood, John Anderson, Zack Simmonds and others was on argument before Judge Cardoza yesterday, but without reaching a conclusion.

### Pacific Mail Company Matters.

CHICAGO, Jan. 27.—New York specials say the officers of the Pacific Mail Company deny the truth of the rumor that the Panama steamers are to be withdrawn. They say the business of the company continues profitable, though less so than formerly.

### Louisiana Legislature.

NEW ORLEANS, Jan. 26.—In the Legislature last night after a session of nearly 12 hours of confusion and disorder, the Chattanooga railroad bill passed. The *Bulletin* says it is doubtful if a more confused, excited and disorderly Legislature was ever seen on this continent or anywhere else.

MOBILE, Jan 27.—Rev. Henry N. Pierce was yesterday consecrated Bishop of Arkansas. He was formerly pastor of St. John's Church.

### Arrival of Geo. Peabody's Remains.

PORTLAND, Me., Jan. 25.—The *Monarch* and *Plymouth* arrived at the outer harbor between 5 and 7 o'clock to-night. The former having on board the remains of Geo. Peabody.

### Georgia Legislature Organized.

ATLANTA, Jan. 26.—The House of Representatives was organized to-day. R. B. McWhorter, Republican, was chosen Speaker over J. E. Bryant, Conservative, by 24 majority. Three members of the House have been declared ineligible by the Military Commission and the seats of 18 members are declared vacant for refusal and failure to take the oath required by the laws of the United States.

### Attempted Murder by a Woman.

PROVIDENCE, R. I., Jan. 27.—Mrs. Sutcliff attempted to kill Mrs. Adrienne B. Mercer, this evening by shooting her with a revolver. Mrs. Mercer was slightly wounded. Cause jealousy. Both parties moved in respectable society.

### Matters in Virginia.

RICHMOND, Jan. 27.—Governor Walker, upon the receipt of information of the President signing the Virginia bill, will issue a proclamation calling the Legislature together February 8th. General Canby will give up control of State affairs when the Legislature meets.

### Exoneration of Judge Busteed.

CHICAGO, Jan. 27.—Washington specials say the probability is that the House Committee will report exonerating Judge Busteed from the charges against him. Thus far none of these charges have been sustained. The Judge leaves the whole investigation to the Committee, not attempting any defense.

### The Peabody Funeral Delayed.

PORTLAND, Me., Jan. 27.—The reasons for not landing Mr. Peabody's remains till Saturday is that the British authorities instructed Capt. Commeratt that the remains must lie in state on board the *Monarch* two days after their arrival.

### BY THE CABLE.

LONDON, Jan. 26.—A great meeting was held at the Mansion House in this city last evening to promote immigration to Canada and other British colonies. The Lord Mayor presided and other eminent men addressed the meeting.

A submarine cable has been ordered which will be laid along the Pacific coast of South America from Panama to Payta.

The *Times* has an editorial on the definite adoption of the policy of annexation by the United States. It says England is indifferent in the case of the Dominican annexation, which is only widening other negro communities.

ROME, Jan. 26.—The Pope still suffers much from cold, but presides in the Ecumenical Council every day. It is said the Council will suspend, possibly close altogether, about Easter, on account of the insalubrity of Rome.

PARIS, Jan. 25.—Reports are current that Ministers Daon, Lenkel and Valdrome will resign, on account of want of harmony on commercial questions.

A cable was recently laid from Selcombe, England, to Brigoulan, France. It is of the most solid description of deep sea cable, weighing eighteen and a half tons to the mile. The wires will shortly be completed that are to connect the cable with the land lines in both countries, so that messages may be transmitted directly from Brest to London without passing through Paris, as at present. This will place London and New York almost in direct communication. The whole route will be under the control of the French Cable Company.

It is said no reduction will be made in the French army this year because of the recent troubles in Paris and elsewhere.

The majority of the Chambers resolved to leave each member free to discuss commercial questions according to his own convictions, and not to make the final vote a test of the strength of the Government. It is probable this act will prevent a change in the Ministry.

The Bishop of Nismes is very sick at Rome.

It is rumored that Father Gratrey will be superseded as the Superior of the order of Orators on account of his letter on the Ecumenical Council. The Papal authorities have forbidden the publication by the Bishops of the contents of the letter written by him to Archbishop Molines. It is supposed that in his letter the Bishop commits himself decidedly against the dogma of infallibility.

MADRID, Jan. 26.—The election returns from the provinces are delayed by heavy snows. As far as heard from the country has declared against monarchy. The candidates known to be elected so far, are Unionists 40, Democrats 16, Progressists 6, Republicans 1, Carlists blanks. The defeat of the Duke De Montpensier at Oviedo is confirmed.

The Spanish Consulates at Mobile, Jamestown, Charleston, Sydney, and the Vice Consulate at Savannah and the City of Mexico, are suppressed. The present Consul of Spain at Mobile, is transferred to the Vice Consulate at New York.

DUBLIN, Jan. 26.—A tenants rights meeting at Dungarvon was broken up last night by the Fenians.

PARIS, Jan. 26.—A rumor of the death of the Pope is in circulation, but it is traced to no authentic source.

### OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, Jan. 26.—This afternoon Quinn made further confession to two gentlemen connected with the press who visited him in his cell. He stated to them that he found the girl on Davis street on Sunday afternoon and induced her to go with him beneath the wharf; that he had never seen her before and did not know her name. He described with minuteness the route which they took and the place where the double crime was enacted, but persisted in saying that she was alive lying on the ground when he left her, and that he used no violence whatever towards her from first to last. He asked several times what would be the result of his confession, and whether he would be hung for the deed.

A large crowd has been in and around the City Hall all day waiting to catch a glimpse of the supposed murderer.

In the County Court to-day Judge Lake refused the motion of defendant to set aside the indictment for *Dolores* [illegible]. In this case the Court held that it is a dangerous practice to review the action of grand juries and that it would be a dangerous precedent to set aside the indictment in the present case.

SAN FRANCISCO, Jan. 27.—Passengers per the *Colorado*, hence January 3d, reached New York yesterday.

Last evening at the stock board [illegible] advanced four dollars, [illegible] declined three dollars, Crown Point and Yellow Jacket each one dollar.

In the County Court to-day in the case of Susan Coon, accused of being accessory to her husband in grand larceny, the Court said the indictment could not be separated, must stand or fall as such. Mr. Barnes said indictment would not be stand. Demurrer sustained and the case referred to the next grand jury.

The case of the people vs. George Barstow, indicted for perjury, motion for continuance was denied. Mr. Barstow was formally arraigned and plead not guilty.

The steamer *New World* laid up this morning for repairing damages caused by the collision [illegible], and the *Antelope* will take her place for a while.

### Stockton Dispatch.

STOCKTON, Jan. 26.—The Stockton and Visalia Railroad Company are energetic in their efforts, and are actually preparing for an early start on their roads.

The weather is clear and pleasant, and the roads are drying rapidly.

### The Yukon River, Alaska.

REPORT OF SURVEY BY CAPT. RAYMOND—THE THIRD RIVER IN THE WORLD.

Gen. Sherman has submitted to the Secretary of War a report from Captain Charles W. Raymond, of the Engineer Corps, on the Yukon river, Alaska, made in accordance with special orders from Gen. Thomas, commanding the Military Division of the Pacific. The letter of instructions to Gen. Raymond required him to determine the geographical position of Fort Yukon, and also obtain as much information as practicable concerning the resources of the Yukon and its tributaries, and with regard to the number and disposition of the native tribes on or in its vicinity, and to ascertain, as far as possible, the amount of trade carried on by the Hudson's Bay Company within our Territory, reporting more particularly upon the amount of goods brought by them from British territory, and finally to report upon the number and condition of the public buildings at Michaelowski.

THE RIVER—ITS IMMENSE SIZE.

With regard to the general description of the river Capt. Raymond states, in size and length it is the third river in the world. The country on both sides is low and level, consisting of flats of sand or gravel, average width about three fourths of a mile, current extremely rapid, and in many places its best channel is not more than three feet in depth. Vegetation on the banks and islands are principally willow and cotton wood. Considerable information is contained in the report concerning the tributaries of the Yukon, and the mountain and island scenery met with at many points of the journey is described as very beautiful.

THE INDIAN TRIBES.

Observations among the native tribes were limited, owing to the rapidity with which the party was obliged to travel, but large space in the report is devoted to Indians, which the author classifies as Indians of coast and Indians of interior.

The first of which (the writer with personal knowledge) are situated between Behring Straits and the upper mouth of Kwichpak or Yukon river. These Indians are often called after names of villages they inhabit. They intermingle with each other to great extent, which has produced great similarity in their language, character and appearance. It is almost impossible to estimate their number, as they were rarely met with in large parties, though experienced persons think they number about 5,000. In winter they live in their villages, trapping for skins in the vicinity, and occasionally visiting St. Michael's for trading purposes. Their villages contain from two or three to a dozen families, and are composed of rude huts, covered with earth. The door, which is a small hole near the ground, must be entered on hands and knees. Rude as they are, they are, nevertheless tight and comfortable. The habits of the Indians are spoken of in a very unfavorable manner, both as regards men and women. They are, however, kind, peaceable, generous and hospitable. Capt. Raymond had many opportunities of judging them in this respect, and is indebted to them for useful assistance on many occasions.

The report devotes much space to the description of the Yukon river, and the details are of a very interesting character, treating as it does on the manners, customs and general character of the different tribes. Those who live on the banks of the southern tributaries of the Yukon are much superior to the Indians on the northern streams for intelligence and enterprise. At posts where the advantages of the Christian Church have been had, there is a marked influence visible among Indians who, for intelligence, far surpass other tribes on the river.

DISEASE AMONG THE INDIANS.

Attention is called to the prevalence of disease and mortality among the Indians, which is so serious as to threaten extinction of many of the tribes. Their reckless exposure to the severity of the climate is the principal cause. These facts are alarming, for without their assistance the profitable prosecution of the fur trade is impossible. In the collection of furs in northern Alaska the white man can never be substituted for the Indian.

RESOURCES OF THE COUNTRY.

With reference to the resources of Alaska, Capt. Raymond says agriculture is not among them. The timber of the Yukon is small and of poor quality, and cannot be compared with that of Oregon and Washington Territory. He was unable to find traces of valuable minerals on the river, although it is possible that deposits may be found on the tributaries. Enormous quantities of fish, especially salmon, are found in the northern rivers. The salmon is far superior to anything he has seen elsewhere. The great resource of Northern Alaska, however, is its furs, which, up to the transfer of Alaska to the United States, was controlled by the Russian American Fur Company and the Hudson Bay Company.

As to the amount of trade, it is difficult at present to obtain accurate information, those of the Russians competent to judge have left the country, and our own traders have had so far too little experience for correct judgment.

### UNION REPUBLICAN CONVENTION OF OREGON.

The Union Republican voters of the State of Oregon will meet at the City of Portland at 10 o'clock A. M., on Thursday, the 7th day of April 1870, in Delegate Convention, for the purpose of placing in nomination a State Ticket to be supported at the approaching election in June and the transaction of such other business as shall properly come before said Convention.

Counties will be entitled to delegates as follows:

| County | Delegates | County | Delegates |

### Mr Dawes Speech on the Estimates

The Herald speaking of Dawes speech in the House of Representatives concerning the Department estimates says "He has dared to speak the truth and all the Radicals in the country will howl after him until he weakens and rejoins the hosts of [illegible] dead. By what token does the Herald speak? What has it seen in the Republicans to indicate any purpose of howling Mr Dawes down? It is true Mr Trumbull denounced Mr Dawes misstatements. It is very likely he committed some errors as any man may who deals in facts and figures and so made some misstatements. Another Republican explained what Mr Dawes did not, that the increase in the estimates an additional necessary expenses was owing to authorized by Congress, and that the Departments were not therefore, responsible for it. Mr Butler, in his speech said that Mr Dawes statements were made upon a misapprehension of the facts some of which Mr Butler explained quite satisfactorily. And that is about all the adverse comment of which the telegraph has thus far informed us. Now what is the attitude of the Republicans in and out of Congress in regard to Mr Dawes speech? Certainly not as stated by the Herald. A Washington dispatch of the 19th inst says "At the conclusion of his speech, *Dawes was thanked by nearly every Republican on the floor*." Another Washington dispatch of January 25, says, "The introduction from the House Appropriation Committee of the annual appropriation bill for Judicial Civil and Executive expenses, brought out the fact that *the whole committee is with Dawes* in objecting to the Department estimates. They insist on the most rigid economy in expenses. The committee intend pursuing the policy of reduction in estimates to be acted on in other bills. Nearly two-fifths of the present reduction is in expenses for Congress, showing that the committee is not actuated by any special hostility to the Departments."

We trust the Herald will not conclude that, because *every member* of the Committee on Appropriations is with Mr Dawes, there are, therefore, no Republicans on that Committee. The committee consists of Mr Dawes, of Massachusetts, Chairman, and Messrs Beaman, of Michigan, Kelsey, of New York, Washburne, of Wisconsin, Lawrence, of Ohio, Sargent, of California, Dickey, of Pennsylvania, *Niblack*, of Indiana, and *Beck*, of Kentucky—Republicans in Roman and Democrats in Italics—seven Republicans and two Democrats, all with Mr. Dawes. Then the dispatch referred to above, goes on to say, "*Public opinion is so decided in supporting the position taken by Dawes*, that every Department is now overhauling its estimates." From which it does not appear that the "Radical" public is disposed to "howl" Mr Dawes down, or to make him "weaken." On the contrary, it would seem that not only the committee, but the "hosts" are with Mr. Dawes. Even the Departments, instead of undertaking to "howl" Mr Dawes down, have taken themselves to overhawling their estimates and to figuring the expenses down. We guess the Herald will have to try again. And we hope it will follow the advice which Mr. Dombey and Sister had on hand, gratis, for all occasions, and "make an effort" to say something justified by either facts or rational probabilities, rather than to trust altogether to the fashionable style of Democratic declamation.

### The Oregon War Debt.

The part payment of claims held by people of Oregon, growing out of the Indian war of 1855-6 has been referred to by the Herald as an example of "loyal repudiation," meaning thereby repudiation by the Republicans. The Herald seems to be badly posted. The Indian war occurred just in the midst of the Presidential term of Franklin Pierce and when there was a Democratic majority in Congress. After the expiration of President Pierce's term, James Buchanan became and continued to be, President till March 4th, 1861. During these years, the Indian war debt accrued. The claims were referred to a Democratic Commission (partly military) of which L. F. Grover was the head and front. His appointment came from a Democratic President. The commission proceeded to audit the claims. To show how properly this was done and what care was used by these Democratic commissioners to prevent *stealing* from the government, it is only necessary to state how prices of articles were "put up." Ordinary American horses worth from seventy-five, one hundred, to one hundred and fifty dollars, were put in at three hundred, four hundred and in some cases as high as five hundred dollars. Rifles were not infrequently appraised at $75 or $100, which were not worth more than $20 or $30. Persons having spoliation claims, were in many cases awarded five, ten, and even twenty times as much as their property destroyed would have sold for. Everything went in at corresponding figures. This way of auditing was adopted on the principle that the government was rich and could afford to pay well, especially as the claimants would not, in the natural course of things get their pay for some time. The claims thus audited were sent up to Washington and the Treasury Department, then under charge of Howell Cobb, after examination in the Third Auditor's office, proceeded to cut down the claims. They were not allowed at the exorbitant figures sent up, and if we are not mistaken a part or all the claims were sent back to be readited. The auditing commissioners' report was so clearly a flagrant attempt at wholesale plunder that even a Democratic administration did not dare to allow the payment of the claims. In whatever the subsequent Republican administration had to do with these claims, it but followed the exceptional honesty and economy practiced by the Democratic administration which preceded it. These general facts are well remembered and can be proved by hundreds of witnesses. The cutting down of the claims operated hardly upon a few men who were honest enough to put in their property at a fair price including reasonable interest, because their claims were also cut down in the same proportion as the swindling ones for which they have to thank the auditing commissioners. But the general act of cutting down was no more than just toward the government and was about the only act of the kind for which the last Democratic administration was entitled to credit.

COMING HOME.—News has reached us that Messrs H W Scott of the OREGONIAN J H Bayley, Special Revenue Inspector and [illegible] P Earhart, Salem were at Washington on the 24th inst and intending to start the following morning for home by Pacific railroad. They may be expected about February 10th.

### Editorial Notes

A Washington correspondent of the N Y *Times* states that a number of Senators who are credited with having voted to lay the nomination of Mr Hoar upon the table are now causing it to be understood that they are not on that side, and the majority against Mr Hoar which, on the adjournment of the Senate was alleged to be fifteen had on the 7th inst dwindled down to nine and perhaps even less. The correspondent at that date thought the chances for Judge Hoar's confirmation therefore better than they had been at any previous period.

A Chicago correspondent of the New York *Times* speaking of the annual statistics publications in the papers of that city congratulates the people of Chicago upon having laid during 1869 the foundations of a large trade with the Pacific coast. A large proportion of all the different kinds of merchandise transported Eastward over the Pacific road was consigned to Chicago. This trade must continue to grow, and the point which shall offer it the greatest inducements will get the lion's share. The correspondent thinks that in this competitive race Chicago will not permit any rival to get in advance of her.

The Democratic editors are so fond of howling about the moral delinquencies of "Radicals," whenever opportunity offers, that a stranger would be led to believe they have a constitutional monomaniac horror of dishonesty. It might, however, come to be remarked, after awhile, that nothing is ever seen in any of the Democratic newspapers about the sins of Democratic politicians, from which the stranger aforesaid might reasonably conclude that after all there is such a thing as "honor among thieves." These Democratic fellows never blow on one another. We will suggest, however, to any one of them who may be disposed to rail against dishonesty in high places without regard to age, race, color or sex, that the case of Ben. Wood and John Morrissey—the latter a member of Congress—affords an excellent chance for a starter, both of them, as the telegraph informs us, being implicated in the lottery frauds in New York city. Who speaks first?

### The Circuit Judgeship

Some clever poetaster has been going after Judge Hoffman pertentiarly, and the others, generally, in the following rather singular style of rhyme which we find in the San Francisco *News Letter* of Jan 8th.

Is Sawyer appointed, or is he not?
Is Hoffman happy with his lot?
Is Deady injured? not a jot.
Who stirred the fire to boil the pot!
Say, ye who were upon the spot,
Were Cole and Casserly forgot?
Who were or were not in the plot?
Did all escape without a blot,
Or any fires secret shot?
Is it a theme for *bon mot*?
(The rhyme is good, the French is not)
If so, why let your humors trot
How, which way, wherefore, and why not?

Was their a potent telegram?
Was its effect to save or damn?
Did it not give "the Judge" a slam
In the judicial diaphram,
Which laid him open like a clam?

Say who was pitching into Deady?
Was it good policy, or heady?
In politics one should go steady
Old Davy C, before ahead he
D budge and inch, would first make ready
By getting right—as often said he

Some say that one would not be made judge
But just a posturing charade judge,
A sort of single day parade judge,
A stalking kind of an evade judge,
A one night trumpet serenade judge,
A paper made or masquerade judge,—
And not a regular decade judge,
An ermined gowned and salary paid judge,
Let those who heard the statement made judge

The whole thing seems to be a jumble,
A r-a-ta-t-a-rattle and rumble,
A "thank ye, sir" a savage grumble,
A hurly burly leap and tumble,
Where "vaulting ambition" in a stumble,
With his own folly has to fumble;
Which makes ambition somewhat humble
To think his best laid plans will crumble

### WASHINGTON TERRITORY

The *Commercial Age* of Olympia expresses the opinion that the new Governor, Gen Salomon, will receive a warm welcome at the hands of the people of Washington Territory.

The same paper rejoices over the fact that Mr. Garfielde's Lecture on the Pacific Coast is having a wider circulation at the East than any lecture of the kind ever delivered, and thinks it will be instrumental in directing immigration to this country.

The *Age* says A telegram to this place, to day, [Jan 23d] states that a man named Gibson was killed, and Charles McDonald mortally wounded in the affair connected with the jumping of Wren's place.

A letter from Edmond Carr, dated Black River, King Co, Jan 16th is filled with complaints about the bad, outrageous conduct of the Black River Indians. He says they have destroyed property, insulted the women, stolen fruit, hay, vegetables and other property without restraint and conducted themselves outrageously otherwise. Complaints to persons in charge of the reservations have been frequently made, but without avail.

The *Age* says A man in Seattle named Charles Holland, generally known as "Dutch Charley," committed an outrage upon the person of a little white girl some nine or ten years of age some days since. Upon its being discovered, the excited citizens caught the offender and gave him such a severe castigation that he was unable to stand, and then warned him to leave the place which he did as soon as he was able. The punishment was richly deserved, though, perhaps, improperly administered. It is not unlikely his whipping may result in his death.

### THE NORTHERN PACIFIC RAILROAD

FUNDS SECURED TO BUILD IT—WORK TO BE BEGUN EARLY IN THE SPRING—SURVEYING PARTIES ALREADY OUT

[From a Correspondent of the Oregonian ]

New York, Jan 17 1870

I have just heard good news. I saw a letter from Gov J Gregory Smith, President of the Northern Pacific Railroad Co stating that the contracts are closed with one of the largest banking houses in the country, by which the latter agrees to advance the funds necessary to carry on the work.

Gov Smith, Frederick Billings, and others engaged in the enterprise are among the first business men in the country. They are thoroughly and intelligently in earnest in their purpose to put the road through. It is of vastly more consequence to Oregonians than any connection with California can be. Mr Billings tells me that they expect that the Northern road will be completed to the Red River at this end, and that work will be commenced and pushed, at the west end also, *next year*. Surveying parties have already been organized and sent out.

Yours truly S H M

### THE WEST

An Iowa woman on receiving a decree of divorce in the Court room found a new husband awaiting her with a license in his pocket, at the door.

The transfer by rail, of beeves from the Rocky Mountains to California is becoming a regular business and it will soon grow to grand proportions.

Washington correspondents say efforts to secure the admission of the Territory of Colorado into the Union as a State will be renewed very soon after the holidays.

The Quartermaster of the Department of California wants 150 cavalry horses to be delivered at Wilmington depot by the 14th of February for examination and purchase.

A married lady in St. Paul has been in a trance state for six weeks and her bigoted husband refuses to send for a doctor. He says he intends to enjoy a quiet time as long as possible.

THAT FAMOUS SICKLES NOTE—SOME [illegible] THAT [illegible] REGARDING THE NEGOTIATIONS FOR THE SALE OF CUBA

[From the New York Herald Jan 8

WASHINGTON Jan 7, 1870 —It is singular that some newspapers keep repeating the so frequently disproved story that General Sickles really wrote a letter to Regent Serrano informing the latter by a certain day should not the Spanish Government consent to the sale of Cuba to the United States the revolutionary party would be recognized by President Grant's administration. General Sickles never did address any such a letter to the Regent. As so much has been said and written on the subject and so little of the truth given to the public it may be well to furnish you with reliable information that is now in my possession. Before the death of Secretary Rawlins, the subject of Cuba and the propriety of granting or withholding belligerent rights were frequently discussed at Cabinet meetings. Fish, Boutwell and Hoar were opposed to granting belligerent rights holding that the Cubans had not carried their attempt at revolution to that point which would enable us to say that the revolutionists were waging real war and that they had really organized and put in operation a government of their own. Rawlins and Creswell were for a more liberal course to the Cubans. They believed the latter had entitled themselves to belligerent rights and that our government should encourage them by the weight of its sympathy and moral influence. At one meeting quite a stormy discussion occurred regarding the proposition to purchase Cuba. Rawlins became warm and urged the sending of a dispatch to Sickles instructing him to write a note to the Spanish government informing it that unless the purchase of Cuba were consented to within a fixed period the United States would recognize the revolution. Secretary Fish opposed this peremptory proceeding and was backed up in his arguments *contra* by Boutwell and Hoar. But Rawlins enthusiasm carried the day. Grant himself was always disposed to deal liberally with the Cubans and hence gladly sustained Rawlins in his manly attitude towards Spain. The result was that Fish was directed to send a dispatch to Sickles acquainting him with the wishes of the President. Sickles, however acted more cautiously than was expected of him. Instead of addressing a strong note to Serrano he contented himself with merely telling the Spanish foreign Secretary in familiar conversation that it was probable our Government would very soon grant recognition to Cuba unless the proposition to sell the island to the United States should be accepted speedily. Just about the time this interview occurred the Republican outbreaks at Barcelona and other points of Spain heightened the embarrassments of Serrano and Prim. These two statesmen agreed that it would be a capital way to divert the attention of the Spanish people from the Republican outbreak by turning attention to the "insulting proposals from the United States to part with Spanish territory under threats." By getting up a popular cry against the United States, they shrewdly calculated that no notice would be taken of the republican uprising, and it could be crushed out without noise in the newspapers or other quarters. This plan was adopted. Serrano told the Spanish editors how to proceed, and accordingly one fine morning the world was startled by the warlike articles against Uncle Sam that filled the Spanish journals all over Spain. The suddenness of this anti American howl and the remarkable unanimity displayed were lost sight of in the excitement produced in a day throughout Spain. I have very good reason to believe that Serrano and Prim explained the game to Minister Sickles, in confidence of course, and that Sickles while he did nothing to help it, still refrained from saying a word that would explain the real situation of affairs. When you read this dispatch, bearing in mind what I sent you yesterday in regard to the proposed reopening of the negotiations for the sale of Cuba, you will have the key to the secret workings of our diplomacy with Spain.

CONCERNING NATIONAL CEMETERIES—ATTY GEN HOAR'S OPINION

WASHINGTON, Jan 7. Attorney General Hoar will transmit to the Senate on Monday next in obedience to the resolution calling for it, his opinion of July 29, 1869, as to whether the act of February 22, 1867, to establish and protect National cemeteries, is competent to vest in the United States exclusive jurisdiction over the lands required for such purposes. After citing the provision of the law which declares that the title to those National cemeteries shall be vested in the United States, and its jurisdiction over them shall be exclusive. Mr Hoar cites the 8th section of the 1st article of the Constitution and goes on to remark

"I am of opinion that, under this provision of the Constitution, there is no power in Congress to acquire or assert exclusive jurisdiction over any part of the territory of any State without the consent of the Legislature of the State, and that in order to acquire exclusive jurisdiction over a National cemetery the consent of the Legislature of the State in which the same is situated must first be obtained. I have no doubt that as incidental to the power of making war the National Government has the power to bury the dead who have fallen in battle, and to appropriate for this purpose such lands as are necessary to hold such burial places and to protect them from desecration. If the consent of the Legislature of the State in which the burial place is situated can be obtained, I think it might be held under the terms of the Constitutional provision above cited, and an exclusive jurisdiction over it be thus acquired."

### A Huge What is it Monster Killed

[Correspondence of the Oregonian ]

POLK COUNTY, JAN 24th, 1870.

EDITOR OREGONIAN

For several years the farmers in Soap Creek Valley, in the southern part of this county, and the northern part of Benton, have been annoyed by a large animal which destroyed all kinds of young stock and was particularly destructive on sheep. During the last year it grew very bold and was frequently seen in daylight. Some thought it was an American lion, and it was called a cougar, a panther, a tiger etc. It was often hunted with dogs, but always succeeded in whipping all the dogs that went after it killing and wounding a great many of them. About a year ago as two boys about fifteen years old were passing through the hills at evening twilight, it attacked them roaring upon the breast of one who frightened it away with a [illegible] matches. A large reward was offered for its scalp. It was hunted and hounded by all the neighborhood and by parties who came from a distance with trained bear dogs, but to no purpose. The hunters always came off with wounded dogs and sometimes fewer dogs than they started out with. It would frequently approach the farm house in the night and kill any dog that had the temerity to attack it, then help itself to a sheep a hog a calf a colt, or anything it happened to fancy. It could be sometimes heard around the dwellings making a noise much like the hoarse purring of a huge cat, at other times it expressed itself in a growling roar something like a lion. Sometime ago Mr John Miller procured a heavy bear trap and set it in the path near a drift, where they had observed that this animal sometimes crossed Soap Creek. One day last week, on going to the trap in the morning with a neighbor, who carried a gun, he found the enraged monster in the iron toils. In leaping from the drift to the bank, he had set one of his hind feet in the trap and it closed on him just above the hock joint. He had gnawed his leg off except the ham string and would have gnawed that off and got away if he had not broken all of his teeth out on the trap. When Mr Trap came up with the gun the animal sprang at him the full length of the chain, uttering a frightful roar of rage and pain, the gun snapped. Just then it became painfully apparent that the leg was only held in the trap by a slender string. The next time the gun fired and the [illegible] animal, measuring over three feet high, and seven long, lay dead at the feet of his captors. His head measured one foot five inches long and nearly as broad, his leg measured eighteen inches in circumference and he was nearly as large in the breast as a horse with thick round ears a head very much like a lion, and a bushy tail about fourteen inches long. It made great use of its paws in striking like a bear and is about the color of a grizzly. It seems to partake of the character of the bear lion cat and wolf, and yet it is neither. The destruction of this monster is a great relief to this neighborhood, for the people have lost much stock by its ravages and have been kept in fear of their lives for a long time and it seemed to increase in boldness yet was very shy of any one carrying firearms—it seemed to smell the powder and keep out of their way. Yours truly [illegible]

A brilliant wedding was about to take place in Janesville, Wisconsin the other night, the bride and bridegroom were in their places and the preacher had asked the preliminary questions when the officer of the law appeared at the door and requested the bridegroom to answer the suit of a Miss Ashley for breach of promise and seduction. Of course the wedding was stopped and the next day the mother of the would be bride instituted proceedings against the young man for damages.

### OREGON

The [illegible] of snow in Eastern Oregon and everything is going on sleighs, cutters, bob sleds and [illegible].

A considerable part of the Long Tom country is reported overflowed by high water. No damage of consequence reported.

Mr Chas M Cartwright, of Salem is about to go East for the purpose of purchasing machinery for the manufacture of linen at Salem.

Hon Daniel Chaplin of the La Grande Land Office has gone to Washington to represent the people of Eastern Oregon on the subject of the Columbia Branch Railroad.

The *Mountaineer* reports that a very extensive limestone mine has lately been discovered between the Dalles and Canyon City. A sample of which has just been tested by Mr Abrams which proved splendid.

The City Fathers of Dalles City are discussing a proposition to donate to property holders the sum of fifty cents for each shade tree planted as an ornament to the streets the amounts to be deducted from road tax.

We learn from Mr H G Sterling of Yaquina says the *Statesman* that the joint stock company of that place are not waiting for fine weather to commence the new schooner. They have laid the keel and are putting in the frame with all the expedition practicable.

Salem items from the *Press*: The flouring mills have been stopped by backwater. In one week an inch and six tenths of rain fell. Jas Kincaid and Jerome Cragin have been pardoned out of the penitentiary. Mr Thomas Crow has used this winter 6,000 ten pound lard cans. The river is fifteen feet above low water mark.

A letter from Canyon City to the *Mountaineer* says: "In this city the snow is about three inches deep (our average), at Dixie one foot, three miles above Dixie three feet and at Burnt River and Olive Creek from five to eight feet. The ground was well soaked with rain before the snow fell and the weather is moderately cold. Now we may expect a full supply of water when spring opens. Business in this county has been dull, owing to the scarcity of water last year."

From the La Grande *Sentinel* of the 15th: On yesterday afternoon the roof of the large barn belonging to George Mitchell, Esq, of this city, fell in. A man by the name of James Greer, died last Monday evening, at Oro Dell two miles north of La Grande, of dropsy. He was sick eight or ten weeks, during most of which time he was supported by the county. During the week several large freight wagons, or Prairie Schooners have arrived here heavily laden with goods and groceries for our merchants.

### IDAHO

DISCOVERY OF RICH QUARTZ

[From the Boise Chronicle Jan 15]

We were yesterday shown by Mr Freeman of Alturas county, some specimens of gold and silver bearing quartz, which for richness far excells anything that it has ever been our privilege to examine. In the gold bearing specimens, the gold showed literally in chunks. Specimens of this quartz have been sent to the Mining Bureau at Chicago, and pronounced by that institution to be the richest and easiest worked of any ores ever placed before the Board. This is a new discovery, and we believe it will prove a fortune to its lucky owners.

A FAVORABLE TURN OF WEATHER—GOOD FOR THE MINING INTERESTS

[From the Silver City Tidal Wave Jan 18.]

The weather has changed since our last, and instead of the Syrian we have been experiencing a slight touch of siberian winter, much to the delight of those whose prosperity depends on the yield of the placer mines, as well as those whose vocation it is to convey quartz on sleds to the mills. A good heavy snow storm and the weather cold enough to hold it on the ground until spring is what is needed in Idaho and the prayers of the people are daily and nightly ascending to Heaven to send us more snow with cold weather to match.

MONEY SAVED IS MONEY EARNED and a small sum saved monthly and paid to the Puget Sound Homestead Association will insure the payee a share in the valuable Coal Timber and Railroad Terminus prospects owned by the Association on Puget Sound.

What the Hon W T Ballou says about the "King of Pain"

San Francisco Dec 7 1869

Dr J J McBride Having suffered with sciatic rheumatism some months I was induced to use your King of Pain. I take pleasure in recommending it to the afflicted with rheumatism. I know of several cases of neuralgia that have been cured by using it.

To Dr McBride—This is to certify that I have been troubled with neuralgia in my right arm and [illegible] for the past three months and although I have had medical advice and tried a number of remedies, none has relieved me until I tried Dr McBride's "King of Pain" which has done me more good than all the other [illegible] I have tried.

### A CARD.

San Francisco, Oct 16 1869

DR. McBRIDE—My Dear Sir: For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, tracing all the joints of ankle and toes. These pains have come upon me periodically every year about this season of the year. My knees and ankles and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady. These pains would continue for a period of from three to four months every year and they have been regular unfailing annual visitors. I have been accustomed to apply for relief to the best citizens of San Francisco and have used all the popular remedies known to the public. I would sometimes receive temporary relief after long continued application but it would never fail to return in a few days with increased severity.

About two weeks ago while my pains were upon me I saw you at the corner of one of our streets, and heard what you said about your "King of Pain." [illegible] that I listened to you with deep distrust [illegible] I may say that I did not believe your statements [illegible] thought [illegible] it's only a dollar and I'll patronize the "humbug" [illegible] dollar's worth [illegible] I bought a bottle and tried it [illegible] my knee which was fearfully swollen and from which I suffered very severely. The second night I tried it again and my dear Doctor you can judge of my surprise ecstacy and delight altogether when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared. My knee joints were as supple as when I was young. I actually danced with delight much to the amusement of my friends who had been in the habit of regarding me as a decrepid old rheumatic. It has now been two weeks, and I have not felt the least symptom of return. I believe I am cured and I feel so grateful to you that I offer you this statement verified by my oath to be used by you in whatever way you may think proper and I feel it a duty to let others similarly afflicted know where they can find relief.

I am yours, very truly RAPHAEL L. GRAYSE

State of California city and county of San Francisco. On this 18th day of October 1869 personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid, Raphael L. Grayse known to me to be the person who signed the foregoing letter and who being by me duly sworn deposes and says the contents thereof are true.

T W TALIAFERRO Justice of the Peace

TO THE PUBLIC

Grateful for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts. For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight. A score of physicians had abandoned my case as hopelessly incurable. I had even heard my days numbered by doctors and friends. In the agonies of my neuralgia pain I sought the great "King of Pain." [illegible] had ob[illegible] [illegible] for long, [illegible] sight was so much restored that I could read; but although I had needed a guide to find Dr McBride's office [illegible] Before leaving him I had regained [illegible] almost paralyzed limbs and seemingly new strength had returned while all those [illegible] were dissipated. It is now a few days since I undertook treatment with Dr McBride and I can say unhesitatingly that I am better than I ever expected to have been in so little time. My eyesight is most perfectly [illegible] my whole physical system corrected and in one [illegible] doubted health.

My residence is in Reading. I do business at No 61[illegible] [illegible] where I will willingly [illegible] to any one interested.

# CITY.

PORTLAND DIRECTORY —The City Directory for 1870, compiled and published by S J McCormick, is now out and ready for delivery It is got ten up in a very neat manner and contains 100 pages. Besides a directory of the business and places of the citizens, it contains a good deal of statistical and commercial information in re gard to the progress and condition of Portland In addition to the usual contents it contains the city ordinances of a general character now in force, carefully compiled and codified by C A Dolph, Esq, City Attorney which will be found convenient for reference From its pages we learn the following in regard to city matters not before published

The expenses of the public schools in the city for 1869–70, are estimated as follows Salary of teachers $12,200, incidental expenses $2 500 public improvements $1 500, Clerk's fees $750 Total, $16 950 Amount on hand at beginning of the year, $4,959 32 amount to be raised by tax $11,990 68 We have five public schools with an attendance of 870 pupils In these schools fifteen teachers are employed The select schools are eight in number and have in the aggregate an attendance of about 600 pupils

Seven judicial, and sixteen ministerial officers pertaining to the various courts holding sessions in the city, are required to deal out justice to the people.

The total amount of treasure shipped from the city during the year 1869, by Wells Fargo & Co, and Ladd & Tilton was $2 078 657 30, a falling off from the year before

In 1868 the total shipment of wool from Portland to San Francisco was 421 460 pounds In 1869 it was 1,049 400 pounds being more than twice the quantity of the previous year

OREGON PRODUCE —During the past five days the boats from the upper Willamet have brought to this city 9,000 bushels of wheat 11 597 sacks of flour, 999 bushels of oats and 391 boxes of apples. If we except a large number of dressed hogs, cases of mess pork and bacon, these have constituted the principal receipts of produce Much of this, and a quantity previously on hand is now awaiting exportation The *Califor nia* which will sail for Victoria this afternoon will take a full cargo, and the *Montana* for San Francisco to morrow, will likely be well loaded The shipment of Oregon produce from Portland during the year 1870 will, in all probability far exceed that of any former year In 1867 Oregon shipped to San Francisco 37 700 bbls flour in 1868, 119,058 bbls, and in 1869, 137,440 bbls, an in crease of nearly 100,000 barrels in two years In the same time San Francisco exports of the same commodity decreased from 519,509 bbls in 1867 to 427,497 bbls in 1868 These statements taken from a commercial journal published at San Francisco, are very encouraging to the people of our young State.

SHORT TOWN.—A man from the country re ported that he had lost $40 in a "den" on Second street, night before last but as he was evidently intoxicated and probably spent his money he was told by an attorney whom he advised about the matter, that he had better say nothing further in regard to the unpleasant affair He has learned a lesson that will do him good.

A man whose name we did not learn, "drunked" last night and "sidewalked" himself, whereupon he was "calabosed" by a policeman He will probably "jailed" for a day or two

Several attempts at burglary have been made in this city during the week past and a band of burglars are likely around

A pretty extensive gambling establishment, kept by Chinamen, is said to exist on Alder street, north side, between First and Second streets, where "Johns" innumerable congregate and cultivate their propensities for games of chance.

ORO FINO THEATER.—The second night of the season at Oro Fino fully answered all just expec tations of the management, the house being well filled The bill was the same as on the previous evening, "Born to Good Luck," and "Perfection," but the performance was received with unabated manifestations of approval. As on the first night, the double Irish jig by Joe Murphy and wife was encored enthusiastically and the hum orous character pieces by Mr Murphy, during the interlude, were received with great laughter and applause While the performances are kept up to the quality of the two we have had there will be little danger but that the manager will meet with ample support The bill for to night will be a new one, with Joe Murphy and his wife, Mr. Vinson, Miss Mandeville and others who are already looked upon favorably in favorite parts

IN BRIEF —Hon A J Dufur will return to Oregon from an extended visit to the East, about the middle of March

Two young men near East Portland bought a farm for $10 000 four years ago They have since cleared nearly enough money on the products of of the farm to pay for it.

The improvement of Salmon street will proba bly not be consummated until spring

The roof on the new Lutheran Church is done and the building entirely enclosed.

The Columbia river is again entirely free of ice.

Twenty fine fat hogs, already dressed, were brought from Oregon City yesterday

Nonpareil Lodge of Good Templars proposes to hold a public installation and dedication of their new hall, corner of First and Madison street, next Thursday evening

NEW LODGE —On last Monday evening Hon C. Beal organized Union School House Lodge No 112 of Good Templars, with forty charter mem bers, and installed officers for the current quarter as follows Irving Ballard, W. C T; Mrs J. C Hall, W V T, John C Hall, W S, Mrs Shack leford, W A S, Alex Boscoe W F S, Mrs Brownson, W T, Rev W H Hankins, W M, Mrs Smith, W D M, Rev A J McClain, W C; Alex Zachary L D R Barrett, P. W C T; Mrs. John Campbell, W R H S., Miss Brownson, W L H S, Mr Bishop, W I G, Felix Dingman, W O G Night of meeting Saturday

DISCUSSION —The debate at Harmony Hall last night was attended by a goodly number of persons, and elicited considerable interest. We have heard no particular expression of opinion in regard to the merits adduced by either of the dis putants, but those who have attended, with whom we have conversed, seem to be of the opinion that Mr. Todd will find Mr Arnoup's "raps" pretty severe, and that Mr. Arnoup will come to the con clusion that Mr Todd is a spirit which will not "down" at his mere "bidding" The debate will be continued this evening

BANKRUPTCY —The creditors of L H Out-malte, of St. Louis in Marion county, have filed a petition in bankruptcy, against the estate of said Outmettee, in the U S District Court for this District

James Keeling has filed his own petition in bankruptcy and asking for a discharge from his liabilities, amounting to about $2 600

Jos. Bachman, of this city has been appointed assignee of the estate of James Lyon, a bankrupt

PROBABLY FELL —We learn that Emile Van tier was found pretty badly bruised night before last, on the sidewalk, and the supposition is, that he slipped and fell, striking upon his head His injuries are pretty severe It was first thought he had been assaulted by some one but further investigation lead to a different conclu sion.

SLIPPED —A man named Hunsaker, engaged on the roof of the What Cheer House yesterday repairing the flue, lost his footing and came very near sliding off the building But, fortunately caught before reaching the eaves

A DAYS' WORK —The work of assorting and distributing the mail received at the postoffice in this city, night before last, occupied the post master and his clerks all yesterday

A TRANCE —At a religious meeting across the river the other night a brother "tranced" and falling over struck his head on a bench, bruising his cranium pretty badly

PAID —Mr Opitz has received from the Impe rial Fire Insurance Company $500, being the amount of his loss at the late fire on Washington and First streets

PAID HIS FINE. Robert Neal with his fiery steed, got on the sidewalk and had to "chalk down five dollars and costs in the Recorder's Court yesterday

DOWNWARD —The water in the river at this point has been receding for about twenty four hours and has fallen in all something like a foot

BELL TOWER A tower is to be erected in the St. Helens Hall building and a new bell placed therein

MEETINGS The annual meeting of the Portland Library Association will be held on Satur day the 5th prox The first annual meeting for the election of officers will be held on next Tues day by the Willamette Draying and Forwarding Company

WILL SAIL —The steamer *Califor nia* will sail for Victoria at four o'clock this afternoon, and the *Montana* for San Francisco to morrow at 4 P M

GAS CONSUMED The whole number of cubic feet of gas consumed in this city during the six months ending December 31 1869 was 5 336 900

## Chicago's Last Year

BUSINESS OF THE CITY IN 1869—INTERESTING STA TISTICS—BUILDINGS BUILT—WHOLESALE TRADE INCREASING TRADE WITH THE PACIFIC STATES —MORTALITY OF THE CITY

[From the Correspondent of the N Y Times ]

CHICAGO January 3 1870

Our people have celebrated the holidays pretty extensively An immense amount of money has "changed hands" in procuring articles in the pres ent making line New Year's was generally ob served by the suspension of business and the good old Knickerbocker custom of making calls was largely indulged in

BUSINESS FOR THE LAST YEAR

Our daily papers are publishing the statistics of the business of Chicago for 1869 A good por tion of what is published are estimates, and much *of official record*, but the whole gives an approxi mate idea of what we have been doing and the exact facts, could they be accurately arrived at, would make as good an exhibit as any other in terior town can show

NEW BUILDINGS

The tables given set down the number of build ings erected at 3,423, and their value $16 000 000 As 2 993 were of wood and a large proportion of *these small the estimate of the cost is altogether* too high We think $10 000 000 would cover every dollar that has been expended especially as many of the most costly, which are included, will not be completed until far into next season

MANUFACTURES

The value of our manufactures is put down at $58 000 000 In this are included building $16 000 000 beef and pork $13 000 000, just one half Neither of these legitimately belong to that table, especially as Mr Judd has just secured the passage of a bill through Congress declaring that pork and beef packers are not manufacturers And there are two other items aggregating $6 260 000 which are not very creditable to us—whisky and beer And newspapers periodicals books blank books and job printing foot up $2, 900 000 The fact is, Chicago is sadly deficient in legitimate manufacturing The high price of real estate of rents of fuel and of labor work against us in this respect Other localities can obtain these things so much cheaper that we com pete with them at great disadvantage

The published tables of trade are mainly cor rect as they are taken from the Custom House and other records The following is the exhibit, with a comparison with 1868

| | 1869 | 1868 |
|---|---|---|
| Flour bbls | 2 259 904 | 2 002,553 |
| Wheat bushels | 16 714 690 | 13 640 250 |
| Corn bushels | 21 932 425 | 26 306 523 |
| Oats bushels | 11 331 000 | 14 440 459 |
| Rye bushels | 1 524 415 | 1,307,461 |
| Barley bushels | 1 832 470 | 1,511,219 |
| Hides, lbs | 37 035 424 | 27 813,162 |
| Dressed hogs No. | 260 463 | 239,114 |
| Live hogs No | 1 700 040 | 1,706,784 |
| Cattle No | 403 027 | 324 523 |
| Sheep, No | 339 650 | 278,875 |
| Tobacco lbs | 12 901 428 | 8,027,410 |
| Lumber m | 1 012,676 | 962,581 |

WHOLESALE TRADE

The wholesale trade, I think is overstated to the extent of at least $50 000 000 We have a very few heavy houses, but all of our heavy houses together scarcely exceed the sales of the heaviest in New York Dry goods is put down for $42, *000 000 and groceries at $48 000 000* But this is an estimate merely, and not very good guessing at that Chicago has got beyond any necessity for exaggerating its business, if there ever existed any We do a very heavy business for an interi or city and during the past year of general com mercial depression, Chicago has suffered but very little But the fact as announced in one of our dailies recently, that there are 20 000 people out of employment, shows that there is a check—a lull—in general business revenue

The internal revenue collections show that we have done a good business But there is abate ment in this, *for of the $7 580 000 collected*, whisky beer and tobacco paid four sevenths Neither of these are wealth increasing products of industry, but are so much waste and disadvantage to the community

The lumber trade, it will be seen has reached enormous proportions But, at this rate of de struction of the forests of Wisconsin and Michi gan the time is not far distant when this will be gin to decrease for the lack of the raw material

## The Quakers among the Indians

From the Omaha *Herald* of a late date we clip the following item concerning the condi tion of the Winnebago Indians, under Quaker management

In the Winnebago schools there are about 115 children of various ages and sex. Many of them were poor and naked, and were de pendent on the inevitable blanket for the pro tection of their persons. On New Year's day the Agent had given out that he would make them presents of clothing, and the children and their mothers gathered to wit ness the scene Every child in that school, and all others who needed it, were put into new and comfortable suits of clothing, and a happier multitude for its size is seldom seen in this world than that was Blankets were doffed, and the next day all the children ap peared in the school well dressed in warm, neat and comfortable suits The same thing has been done with every tribe in the super intendency, everything thus bestowed upon the children having been generously contri buted by the Society of Friends in the East ern States

What a contrast is here presented between what is and and what has been! We need not dwell upon it Such recognitions of the humanity of the red men are immensely more powerful than outrage and bayonets in subduing them to civilization and in making them good men and women It is the old French policy over again Who can estimate the lasting moral influence of such treatment of this persecuted race?

We know the Quakers God bless them say we They shall have all the support which it may be in our power to give to them in the work they have undertaken

VERY REASONABLE If prejudice ever recognizes the force of reason, we are of the opinion that the sentiment expressed in the following extract from an address deliv ered by Wm H Hall a colored man, at Ham ilton, on last emancipation day, will reach the convictions of the educated Southern born citizen

Pride constitutes a high sense of self es teem, and any man possessing that attribute be he white or black will never be guilty of the unpardonable invasion upon good man ners to force himself where his association becomes offensive, either from birth, habits or complexion, but to that class of persons whose interest was identified with the aims and purposes of the late rebellion and who estimate the change in the condition of four millions of my race at a loss to them of near ly two thousand millions of dollars I am rea sonable enough not to expect their prejudice against race and color to recede with the same rapidity that has marked the spirit of the lovers of humanity but in the name of open justice we demand of these bewildered people and all their north ern conservative allies to abandon the opinions they have conceived of the mor al and intellectual inferiority of the negro in proportion as their merits are manifested to the searching investigation of an intelligent tribunal and if their future advancement make them as good farmers and mechanics, as eminent professional and scientific men and they come up to an educated stand ard of legislators and rulers then we ask the same recognition and protection that the in stitutions of a free country dispense to her subject

The clean thing to do pleasing to Son and Parent than a neat fitting and good suit of clothing The place such at to be found is at Kohn & Fat s's No 91 Front street Their suits are all custom made Their stock of clothing is the largest in the city and will be sold lower than ever the next two months to make room for their extensive Spring stock soon to arrive

The Vital Statistics of California

Show that periodical fevers and acute and chronic disor ders of the stomach and bowels, are among the most prominent and fatal diseases in the State Disobedience to the laws of health as regards diet the use of pernicious stimulants and the wear and tear of business excitement and of "fast life" generally have much to do with the prevalence of these maladies in our cities, while in the interior and especially in the gold yielding districts, they are chiefly due to malaria unwholesome water and exposure and privation incident to life in new settlements and mining camps Now it is a fact that it is as possible to protect the human system against these maladies as to guard life and property against the incursions of assas sins and thieves Strengthen the vital organization with HOSTETTER'S STOMACH BITTERS, and it becomes as capable of resisting the active principle of epidemic or endemic disease as a fire-proof safe is of resisting the action of combustion. This is the experience of thous ands who have remained unscathed by malarious disor ders in the sickliest seasons while their neighbors, who neglected to tone and regulate their systems with this unequalled medicinal stimulant have fallen thick and fast around them Weakness invites disease Vigor repels it Help nature to fight the good fight with in fection whether it be in the air the water or the soil, with this matchless preparation a compound of the rarest vegetable extracts with the purest of all diffusive stimulants

THE FUNERAL TRAIN FOR MR. PEABODY'S REMAINS

[illegible]

The funeral train that is to convey the remains of the late George Peabody from Portland to Peabody is now being prepared at the car shop of the Eastern railroad in Salem. It will consist of three of the finest cars [illegible] and a baggage car. The cars have been elegantly fitted up and adorned with the English and American flags. The fine iron horse "George Peabody" will be used to draw this train to and from Portsmouth, N. H., and for this purpose it will be draped as far as is consistent with safety, as the danger from sparks is considerable. The employes of the train will be dressed in keeping with the occasion. The train will be met at Beverly by the committee of the Salem City Government, and escorted through the city limits to Peabody. The bells of the city are to be tolled from the time the train leaves Beverly until it arrives at Peabody.

WISCONSIN CONGRESSIONAL VACANCY

MADISON, Wis., Jan. 7.—The Governor will issue a proclamation to-morrow designating the 15th of February as the day to hold the election to elect a member of Congress, in place of Mr. Hopkins, deceased.

A LOAN FORCED FROM THE HUDSON'S BAY COMPANY BY THE INSURGENTS—AN INSURGENT LEADER COMING TO THE STATES

ST. PAUL, Jan. 8.—A letter from St. Boniface, Dec. 24, says that on the 22d the insurgents forced a loan of £800 sterling out of the Hudson Bay Company under protest. Five hundred and fifty pounds of this was used to purchase the press and printing material belonging to Caldwell & Co., from which is to be issued a paper in the insurgent interest, bearing the significant title of *Independent*. It will be edited by Major Robinson. O'Donoghue, the young Irish priest, one of the leading spirits of the rebellion, contemplates a journey to the United States, whether for the purpose of raising funds or enlisting Fenian aid is unknown.

Another letter from Gov. McTavish, dated Fort Garry, 25th, to the Hudson Bay agent, says that the loan mentioned above was accomplished by the insurgents carrying off the Hudson Bay Company's safe containing £1,090. The stolen funds are redeemable at Fort Garry and York Factory in exchange on London. He warns Americans against negotiating these notes, as they are useless to them.

ENTIRELY NEW SWINDLE—A NEW YORK GREENHORN TRAP—A BUSINESS WHOSE CAPITAL IS ITS PROSPECTIVE FAILURE—THOUSANDS FOR TENS

[From the New York Sun, Jan. 5.]

The trick of sending circulars to country greenhorns, offering to sell counterfeit money, has been well exposed. A new devise had been resorted to. The *Sun* has in its possession the circular of the "Fourth National Banking House of New York City," Thomas Peters, President, Samuel H. Mapes, Vice President; H. D. Morehead, Cashier, and S. S. Thompson, Secretary. In clumsy phraseology it informs the recipient that the Company are desirous of circulating a few hundred thousand dollars of their bank bills before the 1st of May, inasmuch as they may possibly fail at that time. They wish, also, that the money shall be circulated in small amounts and in country districts, in order that no one may be a heavy loser by their misfortunes, or go to the expense of coming to New York to [illegible] them. They ask the person addressed to become their agent, promising him half the proceeds of all the bills he may pass off, and assuring him that he can make several thousand dollars before May arrives. They propose sending several hundred dollars to begin with, but a remittance of ten dollars is requested as a security for prompt return before any of the bills are forwarded. The circular closes with an injunction not to mention its contents to any one, and requests a reply addressed to S. S. Thompson, 18, West Fourth street, New York.

The drift of this precious document is obvious. If the ten dollars is sent, it is quietly pocketed, and no bills are forwarded. The swindled greenhorn can get no redress, because he compromises himself in desiring to become their accomplice.

COLLAPSE OF A BALLOON AT THE HEIGHT OF A MILE

[From the Atlanta, Ga., New Era, Jan. 2.]

The balloon ascension, announced to come off yesterday, came off at the appointed time. Dr. Albert Hape went up alone. When the balloon had reached the height of about one mile, those who were watching it were horrified to see it explode and collapse in the upper air. No one in the vast crowd doubted that the trip was a fatal one for the ardent adventurer. The city was full of speculations as to where his corpse would be found. For about an hour the anxiety was very intense, when, to the astonishment of every one, the Doctor rode in, sound in body and as cheerful as his habit. His escape was a most miraculous one. How it happened that his life was not sacrificed, surpasses the comprehension of every one who witnessed the awful exhibition. The Doctor fell about three miles out of town, and the only injury he sustained was a few scratches from some bushes in which he fell. He was unconscious when he reached the ground, but soon recovered, and made a very laudatory remark to Ed. Murphy, who was the first man to reach him.

THE CASE OF ATTORNEY GENERAL HOAR

[From the New York Tribune, Jan. 8.]

WASHINGTON, Friday, Jan. 7, 1870.—A prominent Senator in an interview with the President stated to him that there was not the slightest probability of the confirmation of Mr. Hoar. The majority against him was very large, and could not be overcome. The two vacancies on the bench belong to the Pennsylvania and Southern circuits, and Senators consider themselves bound in practice to confirm no one for either place unless he be a representative of some one of the States represented in the judicial circuit. The act defining these circuits is very explicit, and the debates on the same when pending in Congress show beyond a doubt the intention was to make a fair division of the Supreme Court, so that the various sections of the country—the East, the Middle States, the South and the South-West, the West and the North West, and the Pacific Coast—might secure proper representatives. The President said he was aware of this fact when he nominated Judge Hoar, and he had made that nomination only after a careful canvass of all the eligible men of the South and South West, which had convinced him that there was not one he could fully trust, for the important position. The Senator told the President it was not the intention of the Senate to reject outright Mr. Hoar's nomination, but to give him an opportunity for its withdrawal. He thinks the President is convinced that the objection which caused Mr. Hoar's failure to pass the Senate was almost entirely on account of locality. Chief Justice Chase in a conversation to-day with a leading New England Senator, concerning the action of the Senate in Attorney General Hoar's case, said he was sorry they did not confirm him, as he thought he would make an excellent associate justice, though but few of the gentlemen who have held the position of Attorney General, not even excepting Mr. Evarts, has made a more favorable impression on the court in the management and ability displayed in presenting the cases and elucidating the intricate questions of law and evidence than has Judge Hoar. A Senator from New England, who is himself a fine lawyer, and a friend of Judge Hoar, but who opposed his confirmation on account of locality, in a conversation with him to day, informed him that he could not vote for his confirmation for the reasons which he had stated to the Senate in Executive session. He informed Judge Hoar that he was willing to waive the point that he was from New England, provided he would make his residence in the circuit. This Mr. Hoar would not agree to. He said he did not intend to reside in the South, even if he was confirmed. Under these circumstances the Senator said he could not vote for his confirmation.

GOV. BOWIES' MESSAGE—COMPENSATION FOR EMANCIPATED SLAVES

[From the N. Y. Tribune, Jan. 8.]

On this subject he says: That the State of Maryland has a just, and the strongest claim upon the United States for the value of her emancipated slaves there can be no equitable doubt, and I submit this claim for your action, as required, no less by a sense of justice than from the necessities of a large number of our citizens, who in yielding up this property to the mandate of the State, made in accordance with the invitation of the President and Congress of the United States, subjected themselves to immediate ruin. No argument is necessary to substantiate this claim. It may be that the present condition of national finances will not justify the payment, or the present temper of the Congress of the United States will not now sanction the acknowledgment of this just claim, but it is none the less your duty and mine to continue to assert it, to the end that ultimate justice may be done to the people of the State who have so largely suffered from this cause. I cannot hope for any immediate relief, but I do entertain the hope that in time the amplest justice will be accorded us, and therefore I suggest at present merely the passage of resolutions respectfully, but firmly, demanding compensation at the earliest date that the exigencies of the National Treasury will allow.

REPORT ON NAVIGATION INTERESTS

[From the N. Y. Tribune, Jan. 8.]

WASHINGTON, Jan. 7.—The report of the Special Committee on Navigation Interests now preparing will prove to be a document of great interest. Besides the testimony taken before the committee at New York, Boston, Portland, New Bedford, Philadelphia and this city, it will contain a large number of letters from shipowners and builders and reports especially prepared by request of the [illegible] manufacturers [illegible] regarding commercial cities in Great Britain, France, Germany and Denmark [illegible]. It is intended to show the rise and decrease in the carrying and commercial interests during the last twenty years. The [illegible] importance [illegible] of an important [illegible] the [illegible] growing [illegible] ocean carrying trade of Great Britain [illegible] 3,000 steamships having capacity of about 1,000,000 tons. There are 134 regular lines carrying mails and trading with every quarter of the globe. All of 40 of the subsidized mail steamers are available for naval purposes, being required by English law to be so constructed as to be easily convertible into cruisers or troop ships, or both, as occasion may require.

STILL ANOTHER ATLANTIC CABLE

[From the N. Y. Tribune, Jan. 8.]

PARIS, Jan. 7.—Capt. E. B. Thompson and Mr. R. F. Van Choate, Engineer, the authorized agents of the American Cable Company, have just arrived in Paris from Lisbon, having secured from the Portuguese Government the privilege of landing and operating an ocean cable on the Azore Islands. The Company is purely American.

Its cables are to proceed from New York without intervening land lines to the Azores, that re in direct line through the English Channel to a point near Brighton, England, and thence with two lateral branches, one landing at a point near Havre, France, nearly opposite Brighton, and the other at a point on the coast of Holland near The Hague.

It will be observed by this plan that the object is to tap the great business centers, such as London, Paris and the principal cities of Europe whose terminal lines concentrate at The Hague, at points as near as may be in their immediate vicinity, instead, as in the case of existing cables, of having long intermediate land connections. The advantages of this plan are obvious.

First, messages can thus be transmitted with more certainty and dispatch; second, the Company will not be compelled to pay so large a proportion of its tariff to such land lines, and therefore can with profit reduce its rates to a point lower than can possibly be done by existing Cable Companies.

The American Cable Company has obtained the exclusive right to late and important inventions for insulating and operating cables, by means of which it will be enabled to transmit over a single wire as many messages in a given time as can be done on two wires by the galvanometer system as now employed.

It is working under an act of Congress as well as under the laws of the State of New York, and on the reciprocity principle. Part of its stock has been subscribed for and fully paid up in cash, the balance will be disposed of as required during the construction of the cable, which will probably be laid during the present year.

TOBACCO SEIZURES AMONG THE CHOCTAWS

A letter received in this city from Fort Smith, Ark., states that United States Deputy Marshal Hare seized the tobacco factories of F. O. Bond and Mr. Walker in the Choctaw Nation, and are engaged in seizing all the tobacco in the stores of native traders in the Indian country. The Indians seem to be greatly excited and alarmed, and and fear the prospect of arrest, fine, and imprisonment for violations of the internal revenue laws, of which they plead they are entirely ignorant. The writer says the revenue officers go into their stores, seize their tobacco, and then compel them to give obligations for the safe keeping and delivery of the same when called for, thus virtually establishing bonded warehouses all over the country, making every man's store a bonded warehouse. It is estimated that there are 100 Indian merchants in the territory who deal in all kinds of merchandise, and tobacco among the rest. The effect of the seizures upon the minds of the Indians, without the proper explanation of the revenue laws, will no doubt create the impression that the Government is regardless of its treaty obligations with them, and that the United States, their guardian and protector, allows its officers to unlawfully invade their country and to plunder and oppress them by seizing their property, produced and manufactured by themselves, under forms of law they are not amenable to and know nothing about.

# FINANCE AND COMMERCE

PORTLAND, Jan. 28, 1870.

Latest New York gold quotations 121⅞.

Legal Tender rates in San Francisco 82½@83¼.

Portland Legal Tender rates 82 buying, 83½ selling.

The dullness prevailing in trade circles since the holidays has been slightly dispelled, and we note a perceptibly increasing activity, though it is mostly confined to the produce market, and is not so general as is desirable. The money market is without important change, telegrams reporting gold steady at New York for the entire week just closing. The general condition of the commerce of the country is not discouraging, and while we have reason to be satisfied with the business of the past year, the approaching season promises full as much. The basis upon which the business of the country starts out in 1870 is certainly better than existed at this period in last year, for these reasons, which are succinctly given by a reliable commercial writer:

1. The national finances have been placed in a much healthier condition. Ninety millions of obligations have been bought up during the past nine months.

2. The long predicted crisis in our foreign trade has not been realized. On the contrary, everything looks more hopeful in the continued appreciation of our national credit.

3. Another season of abundant crops has made a most substantial contribution toward the recovery of a sound er condition of our industries and commerce.

4. Even the downward turn in the value of real estate is regarded as a favorable symptom.

5. The declension in Wall street speculation is favorable to the financial health of the country, or at least, to the honest men therein.

6. The remarkable progress in railroad building during the year is regarded as healthy, since it has not gone beyond the demands of commerce.

Altogether the lookout for 1870 commercially promises well, without some drawback now unforeseen, a year of at least average prosperity may be expected. A constant increase of exportations is the financial salvation of any country, and even with the best management at home, an excess of imports over exports is a fact that always has much to do with a pecuniary decline. During the year just closed we note that the exports at the port of New York were $80,000,000 less than the imports, and as being of more interest to readers on this coast, we publish the following table concerning the business of San Francisco for the same period:

# TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR CLAY, [illegible] San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated Legs successfully treated.

Horrible Diseases.

There are many thousands of persons, both male and female, who are suffering untold agony from the effects of secret indulgences of early youth, absorbed into the system. Look at their pallid, ... and disfigured faces [illegible] broken-down [illegible] disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid state of affairs, the sufferer finds no relief [illegible] guardians [illegible] and friends [illegible] any of these horrible destroying [illegible]. If they are cared for and cured before it be too late, they may be restored [illegible] immediately [illegible] Dr. Gibbon [illegible] made private disease a special study for years, and it is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, [illegible] who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing [illegible] in curing all diseases in a few days [illegible] public by using the names of eminent physicians [illegible] Be prepared [illegible] Be therefore careful and make strict inquiry, or you may fall into the hands of charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse, solitary vice, depraved sexual indulgence, [illegible] by the youth of both sexes to an astonishing extent, producing with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, [illegible] the rustling of leaves and rattling of chariots, [illegible] about the [illegible] weakness of the limbs [illegible] blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, [illegible] sweats, monomania and frequently insanity. If not obtained should apply immediately, either in person or by letter, and have a cure effected by his safe and entire mode of treating [illegible] as which they are [illegible] effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by some of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are under any of these fearful maladies, should not [illegible] sacred responsibility resting upon them, but [illegible] obtain immediate relief.

DOCTOR GIBBON is responsible, and will give his patients a written instrument binding him to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, remitted by letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and [illegible] who, with bogus sworn-to certificates, dupe the [illegible] Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of [illegible] [illegible] and other places, are tradesmen, and [illegible] may be found to work at their trades. Some are ex-clerks, tailors, shoemakers, newspaper carriers, peddlers, [illegible] etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1865. The only way to avoid them is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended [illegible] letters, etc. Dr. Gibbon will satisfy [illegible] who call at his office of his ability to treat [illegible] purposes to cure.

Address DR. J. F. GIBBON, 623 Kearny street, corner Commercial (Private Entrance on Commercial street), San Francisco. Post Office Box 1957.

REMEMBER TO PUT BOX 1957 ON THE LETTER. Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

# HIRAM SMITH'S

# Ophthalmic Panacea

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered. IT CURES the most stubborn and [illegible] CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c. as has been sufficiently [illegible], [illegible] ing the few months which it has been brought to public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do no harm, and a trial of it is therefore without injury to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, TEN and even EIGHTEEN YEARS' standing in [illegible], Linn county, Oregon, and its vicinity, to which the following persons will bear witness:
